# Acknowledgments

I would like to acknowledge the continuing support of colleagues both at Trinity College and elsewhere who have discussed with me the ideas in this book over many years. They include: Patricia Byrne, Maurice Wade, Jim Jones, Richard Nolan, Jack Costello, the Dean of the Faculty and the Dana Research Professors at Trinity who selected me to become one of their own, which gave me the time a few years ago to start the research that made this possible, the students who explored with me many of the ideas found herein, Alex Wright, and especially Susan Parsons, former colleague in the Religion Department at Trinity, and now for many years a long-distance colleague without whose support and encouragement this book would not have been undertaken.

For Liz, Amy, and Daniel: the community that is my immediate family.
